

# Technical Data Sheet

## Product: AA125CN

THE EDGE  
ON SAFETY

### DESCRIPTION

Natural Satin Anodised Aluminium single rake-back Profile. AA125CN is the curvable alternative to the AA125 straight profile. Profiles come pre-drilled and contoured.

### PURPOSE

This stair nosing product has been designed with a ramped back edge to avoid trip hazards on uncovered stairs. Profiles come contoured to allow ease of installation and curving. Nosing can be used for interior and exterior uses.

### MATERIAL

T6 6063 Alloy aluminium - Natural Satin anodised

Standard 2.5 Metre Lengths.

Supplied pre drilled for countersunk screw fixing (screws supplied).

### DIMENSIONS

### EXAMPLE

For PDF and CAD drawings with full dimensions please refer to our website.

In this example AA125CN has been laid on top of vinyl complying with the minimum radius of 425mm. The profile is contoured to allow easy installation on site. This installation has used slip resistant Tredsafe Diamondtred insert for safety, which meets standards of AS/NZ 4586 for wet and dry resistance. The insert is a PVC blend with silica quartz and polymeric plasticiser. The black insert allows for contrast against the vinyl.

Release: November 2018

Information given in this data sheet is based on the current state of knowledge. This does not exempt the purchaser from carrying out his own careful inspections of incoming goods and their suitability for local building codes. We reserve the right to make changes to the product data in the course of technical progress or due to operationally related further development. Owing to factors beyond our control during application, recommendations given in this data sheet require tests and experiments by the customer. Our recommendations do not exempt the customer from the obligation to check any infringements of third-party rights himself and eliminate them if necessary. The suggestions for product use are not equivalent to a warranty of its suitability for the recommended purpose.

Each new release of this data sheet supersedes the previous one.
