

# Technical Data Sheet

## Product: AA123

THE EDGE  
ON SAFETY

### DESCRIPTION

This equal angle trim is designed for installation for Debomat Entrance Matting in a mat well. The profile is also suitable for 10mm floor coverings.

### MATERIAL

T6 6063 Alloy aluminium - Mill finish.

Standard 2.5 Meter Lengths

### DIMENSIONS

### EXAMPLE

In this example, DT083 has been used with Debomat Entrance Matting. This creates a smooth transition to the surrounding PVC flooring.

Release: January 2019

Information given in this data sheet is based on the current state of knowledge. This does not exempt the purchaser from carrying out his own careful inspections of incoming goods and their suitability for local building codes. We reserve the right to make changes to the product data in the course of technical progress or due to operationally related further development. Owing to factors beyond our control during application, recommendations given in this data sheet require tests and experiments by the customer. Our recommendations do not exempt the customer from the obligation to check any infringements of third-party rights himself and eliminate them if necessary. The suggestions for product use are not equivalent to a warranty of its suitability for the recommended purpose.

Each new release of this data sheet supersedes the previous one.
